

After attempting to open the tracking system, the error above appears.

Download the Microsoft Visual C++ 2008 SP1 Redistributable Package (x86)

1. This can be found by searching “Microsoft Visual C++ 2008 SP1 Redistributable Package (x86)” using your preferred search engine.
2. There is also a link on the SUPPORT page at www.traksystems.homestead.com

Follow the update installation directions and your tracking system should work
